- **CARDIO FIT** - This class involving weights, cardio intervals, abs and stretching. This class involves total body exercises that build muscle while including low impact cardiovascular exercises to offer a total well rounded routine for your muscles, heart, and lungs. Cardio Fit is suited for ages young to old and promises to provide a safe low impact workout, yet an effective, alternative to weights and cardio training.
- **FIT FLOOR \$3** -Kacie will take you through a series of circuits on the gym floor targeting large muscle groups with barbells, dumbbells, machines, and cardio. Expect a 45min workout that will leave you feeling strong, fit, and fabulous!
- **FLEXXIT** - Flexxit is a 60 minute class that will help increase muscle mass, improve body definition, improve stamina, improve fat burning and improve athletic performance. Flexxit training has options for all levels of fitness and options for all ages.
- **GENTLE YOGA** - A class suitable to beginners and open to all levels. Connect with your breath through joint-free sustained poses. Get down, dog!

All muscle groups, from large to small, are strengthened in a non-aggressive, non-impact manner making this workout as good for your muscles as it is for your joints. Your spine stays protected, your mind engaged, and your body pushed to its limits.
- **PILATES REFORMER** - The class emphasis is on rhythmic, flowing sets of movements which increase strength, flexibility and stamina while also improving alignment, balance, coordination and tone. The result of the workout is a uniformly developed body with strong back and abdominal muscles. There are countless different movements in the Group Pilates Reformer classes and these are performed seated, standing, on all fours, or lying on your back, side or front all while using the Pilates Reformer machine.
- **SPINNING \$3/\$4** - Stationary group cycling class using imagery to create experience of riding outside! Hey, let's take a ride up those mountains!
- **SHRED** - High intensity “boot camp” style workout, incorporating cardio and strength style exercises to help build muscle, strength and tone. All fitness levels welcome (workouts can be adjusted to meet your level)
